

INSTRUCTIONS FOR THE PREPARATION OF PAPERS FOR THE PROCEEDINGS OF THE INTERNATIONAL SCIENTIFIC CONFERENCE

SCIENCE, LANGUAGE AND CULTURE IN EDUCATION

Papers can be written in Serbian or English. If the paper is written in a language that is not the native language of the author, it must undergo professional proofreading before submission. The editors reserve the right to return the manuscript to the author for revision if it has not been prepared in accordance with the instructions.

Instructions for authors

In addition to the spelling norms established by the current Serbian / English spelling, authors should follow the instructions below when preparing manuscripts:

Font. The paper should be written in Microsoft Word, Times New Roman font, size 12 points. Paragraphs: font – Normal, spacing – 1.5, first line – indented automatically (Col 1). Please do not use spaces or tabs for indentation. Automatic spaces before and after paragraphs (Spacing) are not used. Text alignment is both sides (Justified).

Volume. The paper should have 18,000 to 30,000 characters with spaces, including the abstract and key words in both languages and the list of references.

General information about authors. The author's first name, middle initial and last name are entered in the first line, in the upper left corner. In addition to his/her last name, the author adds a footnote, with their email address (institutional, as a rule) and year of birth. If there are several authors, only the address of one, usually the first author, should be given.

Title of the paper. Three lines below the name. Font: Times New Roman, 12, bold, CAPS LOCK; position: center. If the paper originates from a doctoral dissertation, the name of the thesis, place and faculty where it was defended should also be written in the footnote at the end of the title of the paper. For papers originating from research projects, the name and number of the project, the financier and the institution in which it is implemented or the number of the contract with the Ministry, if it is financed in such a way, should be mentioned in the footnote at the end of the title.

Abstract. The abstract should have no more than 1,400 characters (with spaces) and it is positioned one line below the title. It contains the aim of the paper, applied research methods, the most significant results and conclusions. Five keywords are added below it.

The main body of the text. Papers should be written concisely, in an understandable style and in a logical order. The paper should contain an introductory part including a concise conceptual-theoretical framework and a specific research problem, a precise description of the research methodology, a presentation of the obtained results with interpretation and a conclusion with recommendations for further research or practice.

Instructions for specifying keywords, references, citations, tables, graphs, schemas, pictures, statistical analysis results, list of references can be found on the page <http://www.inovacijeunastavi.rs/en/paper-submission-guidelines/>

Abstract translation. The translation of the paper title, abstract and keywords into the Serbian language should be provided at the end of the paper, following the list of references.

Technical editing responsibility. Authors are kindly asked to follow these technical instructions carefully. Papers which do not comply with the instructions will be returned to the authors for technical corrections prior to submission for reviewing purposes.

Paper review procedure

All papers will undergo double-blind peer review. Reviewers use a paper evaluation form in which, in addition to evaluating various aspects of the work (quality of the title and abstract, conceptual and theoretical framework, methodological approach, explanation of the results and conclusions, literature, text quality and structure, contribution to the scientific field), they give suggestions for improving the paper.

The author is obliged to indicate all the changes he/she made in the text (number of the page where the change is located and marking the place where the change was made), in accordance with the remarks and recommendations of the reviewers. After that, the reviewers will make a decision whether the paper will be published.

The deadline for full paper submission is 30 April 2026. Papers in .doc (not .docx!) format should be sent to the address naucni.skup2025@uf.bg.ac.rs.
